

CS 719 Final Project Evaluation: Content

Name	Topic
------	-------

Category	Comment
SIGNIFICANCE / MAGNITUDE - amount of effective effort - significance of work - could this work be published?	
INTRODUCTION - main idea of project - motivation	
PROBLEM SPECIFICATION - goal/objective - input and output	
DATA SOURCE	
APPROACH (METHOD) - well explained - diagram may be helpful	
RESULTS - screenshots of your software - explanation of screenshots - measures - experimental results - performance statistics	
CONCLUSIONS - summarize what was done - evaluate work compared to problem statement	
OTHER COMMENTS	

CS 719 Final Project Evaluation: Oral Presentation

Name	Topic
------	-------

Category	Comments			
TITLE		Project name		Class number & name
		Your name		Date
PAGE NUMBERS on every slide except the title				
OUTLINE AND ORGANIZATION - at most one slide for outline				
EXAMPLE OR DEMO - appropriateness for live audience EXAMPLE: detailed input, intermediate, output DEMO: input, processing, output				
READABILITY			Legible font	
	Size viewable from back		Readable colours	
CREATIVE EFFORT - aesthetic design - effort made to provide pleasing, original diagrams and tables				
DELIVERY			Clear diction	
	Loudness		Variation in tone	
	Faced audience		Speed not too fast or slow	
ANSWERS TO QUESTIONS - addresses the question - well worded - demonstrates knowledge				
AUDIENCE INVOLVEMENT - audience paying attention?				
QUESTIONS TO OTHERS - well worded - matter of significance - demonstration of attention				
EXTRA DEMO - additional features that could not be demonstrated during final presentation				
Mark on Presentation				
Mark on Example or Demo				

CS 719 Final Project Evaluation: Written Report

Name	Topic
------	-------

Category	Comment
TITLE PAGE	
- project name	
- your name	
OUTLINE OF WRITTEN REPORT	
- is outline present?	
- is outline logical?	
BACKGROUND	
- your previous projects	
- relevant existing techniques	
- quality of summary	
- analysis of strengths / weaknesses	
- correct format for citations in text	
EXAMPLE	
- clarity, completeness	
- is example original?	
- appropriate for a reading audience	
- detailed input, intermediate,output	
IMPLEMENTATION	
- prog. langs / packages / versions	
- # of modules; # of lines	
- show three crucial snippets of code in your written report	
CONNECTION TO RECENT RESEARCH	
- Compare and contrast to recent research	
SUGGESTIONS FOR FUTURE RESEARCH	
REFERENCES	
- enough, up-to-date	
- all in consistent, correct format	
- data sets, methods, software	
OVERALL ORGANIZATION	
WRITING INTEREST:	
- freshness and readability	
- effort made to provide pleasing, original diagrams and tables	
WRITING QUALITY	
- organization of paragraphs and sentences	
Mark	

Marking Scheme:

/10	UofR%	KEYWORD and UofR Description of Performance
10	95-100	SUPER (S): An exceptional performance.
